

Variable information: LASAB172

Bioelectric impedance is not measured in the whole sample, only in interviews taken in 1993 (N=247).

name	label	values
bmresist	Bioelectric impedance: resistance	not in sample(-3), no valid measurement(-1)
bmreacta	Bioelectric impedance: reactance	not in sample(-3), no valid measurement(-1)
bmrefuse	Respondent refused	not in sample(-3), no answer, skipped(-2), no answer, coding error(-1), reason not applicable(1), reason applicable(2)
bmno plac	Not an adequate place to lie down	see bmrefuse
bmphysic	Respondent not physically able to undergo the measurement	see bmrefuse
bmequipm	Equipment malfunction	see bmrefuse
bmedema	R characteristics: edema on leg	not in sample(-3), no answer, skipped(-2), no answer, coding error(-1), no(1), yes(2)
bm cold	R characteristics: cold (shivering)	see bmedema
bm drink	R drank before measurement	not in sample(-3), no answer, skipped(-2), no answer, coding error(-1), coffee(1), tea(2), other(3), did not drink(4)
bm number	R number of drinks	not in sample(-3), no answer, skipped(-2), no answer, coding error(-1),
